

## Recycling Campaign of Clothes and Toys

Volunteer Manhours: 12  
Total Number of Beneficiaries: n/a  
Actual Amount Invested in Community: n/a

February 2024

### Program Description:

Championing a sustainable impact here at Wasco!

We are thrilled to share our latest initiative – a dynamic recycling campaign involving our #TeamWasco as they make a green start this Chinese New Year!

As part of our commitment to the circular economy movement, #TeamWasco rallied together earlier today bringing with them gently used clothes and toys, redirecting them to the Salvation Army Recycling Collection Box in Gardens Mall, where they'll be upcycled and repurposed. We are also pleased to share a whopping near 200 kg of items were successfully collected and donated. Well done #TeamWasco!

By donating these items, we will not only be extending the lifespan of these possessions but also contribute significantly to reducing our ecological footprint. We are proud of #TeamWasco through these actions that come with monumental consequences for our workplace, community and the environment.

Together, we can make a tangible difference and set the stage for a more conscious and responsible way of living. Every item donated is a step towards building a greener, cleaner future. Join us in this transformative journey and we hope we are able to inspire others to embrace the circular economy ethos by creating a ripple effect of positive change.
