February 2024

Program Description:

Wasco Berhad (Wasco), in collaboration with Tzu-Chi Malaysia, are proud to lead a remarkable initiative dedicated to sustainability. During our festive spring cleaning, we diligently collected a diverse range of recyclable items, encompassing plastics, clothing, paper, electronics, and more. Through the concerted efforts of #TeamWasco, we proudly gathered a total of 120 kilograms of recycled materials!

Following our collection drive, these items were promptly delivered to Tzu-Chi Malaysia's Recycling Center in Kepong. There, the items will undergo transformation into new resources, significantly reducing our environmental impact and carbon footprint. We extend our sincerest gratitude to the Tzu-Chi Malaysia team for their warm welcome, and we believe that this collaborative endeavor not only embodies the spirit of community and partnership but also underscores our steadfast commitment to the principles of the circular economy.

By repurposing these materials, we are not only minimising waste but also paving the way for a greener, more sustainable future.

A big shoutout to everyone involved in making this initiative a resounding success! Let's continue to champion sustainability, one thoughtful action at a time, and create a future that thrives in collective green environmental efforts.
