

Beach Cleanup at Pantai Remis

Volunteer Manhours: 272
Total Number of Beneficiaries: 500
Actual Amount Invested in
Community: RM 7,133

May 2024

Program Description:

In collaboration with MY Clean Beach, Wasco Berhad (Wasco) through Wasco AgroTech and Shinko Wasco Turbine recently rallied together for an impactful beach cleanup at Pantai Remis, Jeram. The initiative was a remarkable demonstration of community spirit and environmental stewardship, as everyone worked together to restore the natural beauty of Pantai Remis.

A total of 34 dedicated volunteers rolled up their sleeves together and successfully collected more than 50 kg of waste - ranging from general waste, plastic, glass, tin, metal, cigarette butt, face masks and straw - a sheer volume that highlights the urgent need for ongoing efforts to protect our beaches and marine environments from pollution. Well done #TeamWasco!

Each piece of trash removed from the beach is a step towards a cleaner, healthier planet. With the aim to raise awareness on the impact of pollution, the initiative also fosters a sense of responsibility towards our environment alongside strengthening our community bond, especially on the significant impact of our actions to marine life and ecosystem.

We extend our heartfelt gratitude to all the volunteers for their enthusiasm and hard work, showcasing truly commendable efforts and with hopes serving as an inspiration to others. We also would like to express our gratitude to MY Clean Beach for partnering with us, of which their support and collaboration were instrumental in making this initiative a success

Here at Wasco, we are committed to continuing our efforts to protect and preserve our environment. By working together, we are a step closer to a sustainable future and ensure that our beaches remain clean and beautiful for generations to come.
