

## Beach Cleanup at Pantai Sungai Karang

Volunteer Manhours: 325  
Total Number of Beneficiaries: 500  
Actual Amount Invested in  
Community: RM 3,068

February 2024

### Program Description:

Wasco Berhad (Wasco) through Wasco Coatings Malaysia and Wasco Lindung Sdn Bhd, recently embarked on a journey in making a positive impact on the environment by teaming up with its project partner through a Beach Cleaning Programme at Pantai Sungai Karang, Kuantan.

The initiative was a blend of unique opportunities for employees to unite, bond, and work collaboratively towards a shared vision of environmental responsibility, actively contributing to the reduction of waste and plastic pollution in the area and a substantial step forward in safeguarding the pristine beauty of our natural surroundings, emphasising our dedication to environmental conservation.

The culmination of the event was marked by a spirited and friendly football tournament amongst our employees. The camaraderie on the field mirrored the unity displayed during the beach cleaning, creating lasting memories and reinforcing our shared commitment to creating a better tomorrow.

We extend our heartfelt gratitude to all enthusiastic participants, dedicated volunteers, and our esteemed partners for their unwavering support in making this CSR Beach Cleaning Programme an outstanding success!

Together, we have proven that positive change is not only achievable but also immensely rewarding.
