

## Blood Donation at Queen Elizabeth Hospital

Volunteer Manhours: 80  
Total Number of Beneficiaries: 0  
Actual Amount Invested in Community: RM 523

August 2024

### Program Description:

Wasco, through its pipe manufacturing outfit in Sabah recently held a blood donation drive that provided a timely boost to the critically low blood supply at Queen Elizabeth Hospital. Of the 45 employees who volunteered, 31 successfully donated, helping to replenish the hospital's reserves.

Queen Elizabeth Hospital, facing a significant shortage, expressed deep appreciation for the donations. The hospital also noted the participation of several first - time donors, underscoring the broader community's willingness to step up in times of need.

The event was organised by Wasco Pipe Sabah CSR committee, whose efforts were praised by management of Queen Elizabeth Hospital for their effective coordination. The drive highlights Wasco's ongoing commitment to social responsibility and community engagement.

This initiative not only reflects Wasco's values but also serves as a practical response to an urgent need, reinforcing the Company's role as a responsible corporate citizen.
