Volunteer Manhours: 160
Total Number of Beneficiaries: 39
Actual Amount Invested in
Community: RM 2,643

May 2024

Program Description:

20 volunteers of #TeamWasco from Wasco Pipe Sabah (WPS) recently brought immense joy and fulfillment to the 39 incredible residents of Pusat Pengurusan Jagaan OKU Leshan in Kota Kinabalu, Sabah.

With the aim to provide essential items and foster an inclusive and supportive community, our volunteers not only helped to improve the lives of the residents but also reinforced the values that define Wasco - passion and being socially responsible.

Supplies such as rice, diapers, soaps, laundry essentials, biscuits, cooking oil, canned food, detergents, cleaning supplies and milk powder were provided to the residents alongside a day filled with fun activities such as drawing, dancing, entertainment programmes. The volunteers also cooked and served lunch for the Leshan community, culminating in a warm and stronger bond built within the community.

On behalf of Wasco, we are humbly proud to be part of such a meaningful initiative and look forward to continuing our efforts to support and uplift our community within our network of operations.
