

School Infrastructure Upgrades - Art Studio Stage

Volunteer Manhours: 1,945
Total Number of Beneficiaries: 780
Actual Amount Invested in Community: RM 14,220

March 2024

Program Description:

Wasco recently completed the initial phase of upgrading for SDN007 in December 2023, involving the concreting of open yard spaces and repairing damaged ceilings. Subsequent phases for the remaining three schools are slated for completion in the first half of 2024. Crucially, all materials for the upgrades are supplied by Wasco, and the entire process is executed by dedicated employees.

Shan Karupiah, CEO of Wasco Engineering & Fabrication Group, emphasises the company's commitment to community empowerment through education. Enhanced school infrastructure plays a pivotal role in the holistic development of students and communities, creating an environment conducive to learning, fostering engagement, and elevating academic performance. Through sustainable practices and collaborative efforts, Wasco is contributing to the improvement of the educational landscape in Batam, creating a brighter future for generations to come.
