

Container

Segment / Applications

Utilities, renewables & transport:

- All smaller multiple module projects
- BESS (Battery Energy Storage)
- Hydrogen production
- Power generation

Features

- Stand-alone or modular integration
- Standard size - ISO - logistics advantage
- Lean supply chain commodity item
- Customisation is possible but price impact
- A highly compact concept with loads of technical solutions

Building Type And Equipment

- Fully welded based on shipping container solution
- Built to house - HV, MV, LV, transformers or Batteries
- Solution offers protection
 - Fire ratings, HVAC, F&G & security systems
